HONGRONG, MONDAY, FEBRUARY 6, 1882. By the departure of the O. & O. steamer Oceanic, without the usual payment of the fee to the U.S. Government for certificating Chinese passengers, the last has been seen here of an irregular and illegal impost which has been levied for over twenty years. This reform is due to Consul Mosby, who has THE delivery of the American mail was from first to last been the most uncombegun at 8.45 this morning. promising enemy of official irregularities. As there is good reason to believe that the fees charged on Chinese passengers sailing in Foreign ships would have rightly become the property of the Consul-although those collected from American vessels go into the Treasury in these daysthis fact had apparently no weight with Colonel Mosby, who has now succeeded in abolishing this fee altogether. So doubtful were several leading American merchants as to the accuracy of the Consul's opinion that, without authentic official advices from the States, the insisted upon paying the fees upon the O. & O. steamers and other British vessels, preferring to pay the impost by his friends in Hongkong, when the hope rather than run the risk of getting into was expressed that he would be eminently trouble at Home. Ma Li Cheung, second Chinese interpreter at the Magistracy, has just been appointed an interpreter to King Kalakana. Mr Li Choung entered the service of the Governmont in 1872 as charge room interpreter. He was then transferred as clerk to the Magistracy in 1875, in which position he remained until 1878. In April of that year he was promoted to be second interpreter. Yesterday evening he was entertained to dinner and presented with a farewell address successful in his new position: Mr Li

between boats belonging to men-of-war in the harbour. The prize was a silver our altogether the conditions of the weather for sailing were not good. The course was from the Portuguese transport Africa to the midchannel rocks, and back round the police chop, p.m., and at ten minutes to five the first boat (the French Admiral's barge) passed tween the boats; the Themis' cutter was third, and a cuttor bolonging to the owner of the Wanderer, and sailed by himself, was fourth. Twenty boats started for the race.

Judging from the number of cases which have recently occurred, and mostly on the outskirts of Chinese territory; piracy seems to be making considerable head in these waters. The police of the Colony are always equal to the task of putting down crimes of the kind mentioned when committed within their jurisdiction, but the particular class of crime we have mentioned presents very difficult features. The Chiness authorities being either helpless or indifferent, the English authorities are, of course, helpless. After crimes of this sort the miscreants can lie quietly within Hongkong waters without the slightest apprehension. It would be greatly to the benefit of both if the Chinese and British Governments were to come to some better understanding in regard to this matter. On Monday last a band of between forty and fifty robbers, with masks, attacked the village of Cheung Kwan O, outside the Lai-ü Mun Pass. The first objects of their raid were a couple of gambling houses, but those inside managed to keep the marauders outside, who then turned their attention to a couple of shops. The villagers turned out en masse, and a fierce fight ensued. One of the villagers was shot dead, and when the pirates ultimately retreated, they had to carry off six or seven men either severely - wounded or dead. About \$600 worth of property was carried off, notwithstanding fendant had leased as a timber yard. the determined resistance of the people of the place. News of the occurrence was, we understand, only received here about the middle of the week. No trace has been found of the scoundrels, and we doubt if any ever will.

ONE of the British North Borneo Company's new settlements has been established at Elopura, in Sandakan Bay, and the reports which have been published of its progress show, not only that the Company's work is calculated to improve the natives in every way, but that the natives are clamorous for the extension of the white man's rule. The Resident of Elopura comments with some pride upon what has been done; and althoughso-called "sentimental enthusiasts" like Sir John Smale may raise a line and cry against any compromise whatever being disorderly in Upper Lascar Row yesterday. made with "customs and rules regarding marriage, slavery, and other things which are quite at variance with our Western ideas," there can be little doubt that the practical form of administration invariably adopted by England towards semi-civilised races is none the less wise and effectual. This is how the Resident concludes his re- fined 50 cents or to suffer one day's impri-

"It must be confessed this is a great change from the past, especially when it is remembered that the people dealt with are found to be unruleable by other nations; and that the best of them are known pirates, and have customs and rules regarding marriage, slavery, and other things which are quite at variance with our Western , ideas, but to have combated which would have immediately placed us at variance with the bulk of the population; in which case our way would not have been so easy with regard to the inland taxation, if practicable at all, while planting would not have been possible : so that a little money which has been spent from time to time, in freeing slaves and the like, has not been thrown away. As it is, the various conflicting interests of Sulu and Dayak, Bajau and Booloodoopy, Chinaman and Malay, trader and artisan, fisherman and coolie, have all been consulted, with the result that European planters can start planting tomorrow with as much security as though in an English county instead of in a country which three years ago was impassable by small parties owing to fear of head-hunters or village feuds, on whose coast it required a small fleet to move together to keep off the pirates."

The south passage-way is to be kept sufficiently clear to allow passing in and out. The space before the jury is to be kept clear. The Marshal is charged with the execution of these directions. Scoville has received a bona-fide proposi-

The party offers to pay \$1,000 immediately, on condition that he shall have the body as soon as the law is executed, and to dispose of it as seen a month or twenty years. Guitoau scomed favorably impressed by the proposition, but after reflection, suggested. "I ought to bring more than that; perhaps some one will offer \$2,000 and then that would pay my debts, and if I get a new trial, that miserable Curkhill can't bring on a lot of fellows just to swear how much I owe them. Guiteau's brother to-day had a conference regarding the argument to the jury. Guiteau insists upon making the closing argument in his own defence, and says that he cannot jeopardize his case by permitting Scoville to have the last say. Guiteau is busy on his argument, and intimates that is pretty sure that he can get a new trial if he should fail to be acquitted now.

Devoushire, from Hongkong, with 398 re-Athens, Jan. 2 .- The elections have been | gistered passengers, some stowaways and by the Quarantine Officer. I referred him to the surgeon of the ship, Dr. Rodrigues. The doctor will tell you what followed." Dr. Rodrigues, an intelligent Spaniard interviewed, said: "Well, then, when the Quarantine Officer was referred to me. showed him the clean bill of health from the American Consul at Hongkong, General Mosby, the celebrated partisan cavalry officer of your late war. Dr. Lockhead, an American physician, having made the examination and vaccinated all needing The Quarantine Officer sneered and said, Were the Chinese on board vaccinated before they left Hongkong? I replied that they had been by Dr. Lockhead, for which one dollar, I think, was charged, and that the English fleet surgeon certified to it. Let me see them,' then asked the Quarantine Officer. Several Chinese were brought forward, the arms exposed. The marks of vaccination were quite plain. This is not what I call vaccination, said the Quarantine Officer; this is only a scratch. They must

be vaccinated over again. Then, turning to the ship, he shouted out to some body on the little yacht alongside, 'John, come up here. Two men, evidently common deckhands, mounted the ladder in response to his call. The-Quarantine Officer then told Capt. Purvis to order up the passengers on board. as he intended to vaccinate them. I told him that it was none of my business, but they had already been vaccinated. He repeated that it was not a vaccination, but a scratch. I said no more. When they were mustered, I helped the Quarantine Officer by holding their arms while he applied the vaccine matter. The two deckhands scratched the arm. The 406 were all vaccinated in about certainly not more than two hours. They submitted without a word, acting like a drove of cattle. When it came to the turn of one; a Chinaman who laughed, and let him go free." "Were all the Chinese on board, then, vaccinated except this one ?" "Every one." "What ! Even those on whom the former vaccination by Dr. Lockhead was shown plainly to have taken?" Every one of them, sir." There must have been some who had had the small-pox before, and their faces must have been more or less pitted." "Oh, yes there were a dozen or more whose faces were pitted-great hollows and holes-but they were all vaccinated. It (Taken at Meurs Falconer & Co.'s Premises. was none of my business (with a shrug of the shoulder), and we didn't want to be

THE CHINA REVIEW.

MIHE widely-expressed regret at the discontinuance of Notes & Queries on China and Japan, has induced the publishers of this journal to issue a publication similar in object and style, but slightly modified in certain details.

THE CHINA REVIEW, or Notes and Queries on the Far East, is issued at intervals of two months, each number containing about 60 octavo pages, occasionally illustrated with lithographs, photographs, woodcuts, &c., should the papers published demand, and the circulation justify, such oztra-matter.

The subscription is fixed at \$6.50 postage paid, per annum, payable by non-residents in Hongkong half-yearly in advance.

The publication includes papers original

and selected upon the Arts and Sciences, Ethnology, Folklore, Geography, History, Literature, Mythology, Manners and Customs, Natural History, Religion, &c., &c., of China, Japan, Mongolia, Tibet, the Eastern Archipelego and the "Pat East" generally. A more detailed list of subjects upon which contributions are especially invited is incorporated with each number. Original contributions in Chinese, Latin, French, German, Spanish, Italian or Portuguese, are admissible. Endeavours are made to present a resume in each number of the contents of the most recent works bearing on Chinese matters. Great attention is also paid to the Review

department Notes and Replies are classified together as "Notes" (head references being given, when furnished, to previous Notes or Queries) as are also those queries which though asking for information, furnish new or appublished details concorning the mattor in hand. It is desirable to make the Queries proper as brief and as much to the point as possible.

The China Review for July and August, 1875, is at hand. It says that forty-two essays were sent in to compete for the best paper on the advantages of Christianity for the development of a State: All our learned societies should subscribe to this scholarly and enterprising Review. It is a sixty paged, bi-monthly, repertory of what acholars are ascertaining about China. The lecture on Chinese Peetry in this volume is alone worth the price of the Neview. Addross China Review, Hongkong.-Northern Christian Advocate, (U.S.)

Trubmer's Oriental Record contains the following notice of the China Review :- "This In the title of a publication, the first number of which has lately reached us from Hongkong, where it has been not on foot as in some respects a continuation of Notes and Queries on China and Japan, the extinction of which useful serial a year or two ago has teen much regretted in Europe as well as In China. The present publication, judging by the number now before us, is intended to occupy a resition, as regards China and the veighbouring countries, somewhat similar to that which has been filled in India by the Calcutta Review. The great degree of attention that has been bestowed of late years upon the investigation of Chinese literature, antiquities, and social developments, to say nothing of linguistic studies, has led to the accumulation of important atores of inform ation, rendering some such channel of publicity as is now provided extremely desirable; and contributions of much interest may fairly be looked for from the members of the foreign consular services, the Uninese Customs' corps, and the missionary body, among whom a high degree of Chinese scholarship is now assiduously cultivated, and who are severally represented in the first number of the lieviete by papers highly creditable to their respective authors.' In a paper on Dr. Legge's She King, by the Rev. E. J. Eitel, to which the place of honour is deservedly given, an excellent summary is presented of the chronological problems and arguments involved in connexion with this important work. - Some translations from Chinese novels and plays are marked by both accuracy and freshness | Four Coolies, of style; and an account of the career of Three Coolies the Chinese poet-statesman of the eleventh century, Su Tung-p'o, by Mr. E. C. Bowra is not only historically valuable, but is also distinguished by its literary grace. Beside notices of new books relating to China and the East, which will be a usoful feature of the Review, if carried out with punctuality and detail, we are glad to notice that "Notes" and "Queries" are destined to find a place in its pages also. It is to be hoped that this opening for contributions on Chinese subjects may evoke a similar Four Coolies, ... degree of literary zeal to that which was

This paper is now issued every day. The subscription is fixed at Four Dollars per annum delivered in Hongkong, or Seven Dollars Fifty Cents including postage to Coast ports.

It is the first Chinese Newspaper ever trued under purely native direction. The chief support of the paper is of course derived from the native community, amongst whom also are to be found the guarantors and securities necessary to place it on a business and legal footing.

The projectors, basing their estimates upon the most reliable information from the various Ports in China and Japan,from Australia, California, Singapore, Penang, Saigon, and other places frequented by the Chinese, - consider themselves justified in guaranteeing an ultimate. circulation of between 3,000 and 4,000 copies. The advantages offered to advertisess are therefore unusually great, and the foreign community generally will It to their interest to avail them sives of
